

## KNOW THE WORK AND ACHIEVEMENTS OF THE SRE.

### Synopsis

Reflecting on our foreign policy is a matter of public interest. The Mexico Abroad series, conducted by the television company of the National Polytechnic Institute (IPN) in collaboration with the Secretariat of Foreign Affairs (SRE), invites us to discuss the challenges and priorities of Mexican foreign policy throughout eight programs broadcast weekly by the national and international signals of #ElOnce, and also through its social networks.

The objective of this series is first and foremost to open a plural and in-depth debate on Mexican diplomacy in public conversation and, to this end, has invited specialists, researchers, academics and diplomats.
